OTSEGO COUNTY

OTSEGO

ABOUT THE COUNTY

From humble beginnings in August, 1982 when four Oneonta residents got together to talk about starting a railroad museum, the Leatherstocking Railway Historical Society (LRHS) has grown to become one of the largest and most active railway preservation groups in New York State. We were proud to celebrate our 20th Year of Rail Preservation in 2002.

The organization was incorporated as not-for-profit, 501(c)(3) tax exempt, educational corporation by the New York State Department of Education on December 16, 1983 and became an affiliate of the National Railway Historical Society on May 7, 1983, being designated the Leatherstocking Chapter.

The Leatherstocking Railway Historical Society was created with two objectives in mind. The first was the protection and preservation of the "Little Red Caboose" in Oneonta's Neahwa Park. It was in this Caboose that the Brotherhood of Railroad Trainmen was organized in 1883, which became the largest rail union in the world. After raising \$10,000 a plexiglass enclosure was built around the Caboose protecting and preserving it for future generations. LRHS is still to this day the official caretaker of this historic piece of rail equipment.

The second objective of the organization was the construction of a railroad museum in the Oneonta area to document, preserve, and educate the public on the area's rich railroad heritage. After looking at several locations in the immediate Oneonta area, a location on NYS Route 7 in Cooperstown Junction was chosen in 1984 as a museum site. The property consisted of 1.5 acres of land and an 1890's Victorian style house. The site was also ideally located at the southern end of the Cooperstown & Charlotte Valley Railroad (CACV), a 16-mile shortline running from the Delaware & Hudson Railway (D&H) mainline in Cooperstown Junction to Cooperstown. The CACV had not been used for several years.

In April, 1995 the organization purchased the Milford Depot, located at the midpoint on the CACV and immediately began restoration work. On June 8, 1996 the depot, restorations complete, was dedicated and opened up to the public as a railroad museum. Also on the property is an 80' x 35' steel building constructed in the 1970's which is used as an engine house.

Many years of planning and fund raising began to pay off in June, 1995 when the organization received a \$225,000 New York State Budget Appropriation, thanks to the efforts of NYS Senator James Seward, a resident of Milford, NY. These funds were used to purchase the CACV and renovate the northern end for passenger service between Milford and Cooperstown, NY.

Culminating over ten years of efforts, the Leatherstocking Railway Historical Society took ownership of the Cooperstown & Charlotte Valley Railroad, built in 1869, when it closed in escrow on July 1, 1997. The actual transfer of funds took place during a press conference on September 15, 1997 at the Milford Depot. Work on clearing brush along the line began in August, 1997 and was completed in October, allowing engineers to perform inspections during the first quarter of 1998 which were necessary to prepare bid packages for contractors who worked on the CACV renovations. These renovations were completed during the spring of 1999 with rail operations beginning on Sunday, June 6, 1999 between Milford and Cooperstown, NY. An official Grand Opening was held July 10, 1999, commemorating the 130th Anniversary of the building of the Railroad.

In September, 1996 property next to the Milford Depot known as the Milford Auction Barn Property was purchased. This unique property, with 12 acres of land and a large barn, will drastically increase the parking and display capacities in Milford. In addition, a large

auditorium in the barn once used for auctions will become an audio/visual center where visitors will be able to enjoy railroad oriented presentations.

Also in September, 1996 the organization acquired through donation a foot and a half gauge, locally built railroad. With a diesel and two coaches capable of carrying a total of 30 passengers the Milford Park Railway is periodically operated for visitors on weekends during the summer months.

The Milford Depot Complex, the Cooperstown Junction property, and the CACV are all parts of the Leatherstocking Railway Museum Project. When completed the Leatherstocking Railway Museum will consist of a museum facility in Cooperstown Junction, the Milford Depot Complex and a facility in the Village of Cooperstown, all connected by train rides on the CACV.

The organization has collected several pieces of rail equipment since its inception. Most notable are two D&H Railway Post Office Cars, a D&H Big Hook Wreck Crane (which used to be stationed in Oneonta), a D&H Jordan Spreader, a fleet of passenger and freight cars, cabooses and a Pennsylvania Railroad GG1 Electric locomotive.

Thousands of railroad artifacts have been added to the organization's archives over the years and are used for displays at the museum facilities and/or stored in the LRHS archives for research purposes.

In addition to rail equipment and paper artifacts several railroad structures have been preserved. Delaware & Hudson signal bridges have been acquired, and FA Tower, last standing wooden interlocking tower on the D&H, was dismantled in Oneonta and moved to the Cooperstown Junction Museum Site for future assembly on that property.

From that group of four local railroad enthusiasts in 1982 LRHS has grown to 300 members

Hanford Mills Museum, listed on the national and New York State Registers of Historic Places, is one of only a handful of operating water powered mills in the country. The historic site features mill tours demonstrating the sawmill and other mill machines, the John Hanford Farmhouse (which recreates home life in the 1920s), and other historic buildings. Visitors can explore the nature and rail trails that wind through the Museum's 70-acre site and are welcome to picnic beside the millpond. The Museum also features a gift shop with Mill-made crafts, books and local products. A full schedule of Hanford Mills events, workshops, children's camps and activities, the Summer Lecture and Performance Series, and Summer Steam Saturdays is available on the web site, www.hanfordmills.org.

CHENANGO COUNTY

CHENANGO

In the Center of it All ~ 'Everything Chenango'

Welcome to Chenango County! Like the rest of Central New York, we all look forward to the change of each season, and after the long, cold winter, spring is an unparalleled favorite. The warmer weather allows us to venture into the great outdoors and enjoy the sunshine and a myriad of activities. Revel in a family adventure, explore the trail systems, and travel the picturesque roads to take in our beautiful landscape. Visit our historic spots and take respite in quiet little pubs and restaurants.

What makes us different? The outstanding beauty of our trails, the area lakes and streams, our small-town rural charm, the numerous parks, and most of all - the chance for relaxation no matter what option you choose.

One of our well-deserved great outdoor assets is Bowman Lake State Park. Many campers have described Bowman Lake as a camper's paradise. A rural, natural setting in a section of New York State steeped in folklore and historic tradition. The 35-acre lake, located in the center of the park, is just 16 feet deep at its deepest point. Today, with 11,000 acres of State Department of Environmental Conservation forestland bordering the park, Bowman Lake retains a unique and special wilderness aspect for all to enjoy.

Considered by most as a family-fun vacation spot, campsites are gobbled up fast, and campers

come from all over New York State and beyond to spend time in the woodland atmosphere and the remote 660 acres of the large, shaded campsites nestled beneath the lofty trees.

Want more of our outdoors? Another outdoor destination is The Greenway River Trails that started out as the "City of Norwich Greenbelt Park Project". This was envisioned as a public, multi-use, run-walk-bike trail system along the Chenango River within the city limits. We see it as a public destination with an overlook to sit, relax, watch the river, observe wildlife, and just enjoy the outdoors - right within the City of Norwich.

From the Greenway River Trails, the Greenway Conservancy group has moved to another location to expand a new outdoor arena that is in the making. What was previously coined as the "Stone Quarry" has now become a cherished recreational destination for hiking, biking, snowshoeing, cross-country skiing, mountain biking, exploration and storytelling by generations of Norwich children and families. The additional quarry property that was acquired by the group forms the centerpiece of a community forest and recreational area that is open to the public. Paramount in making this initiative come alive are the miles of new trails for favorite outdoor activities and the wide-open spaces that will help to increase the resources that will be of value in our area and add to the economic impact of all of Chenango County.

For nearly a century, observers watched the forests of New York State from more than 100 fire towers perched atop the highest peaks, searching for the dangerous, telltale signs of forest fires. There were 19 fire towers in the Catskill region and 52 in the Adirondacks.

We are in DEC region 7 in Chenango County and the Berry Hill Fire Tower is located near McDonough State Forest here in Chenango County. The tower is open to the public year-round from sunrise to sunset. At an elevation of 1,960 feet, the fire tower is one of the highest points in Chenango County and the view stretches into the counties of Broome, Cortland, Delaware, Madison, Oneida, Onondaga, Otsego, and Tioga. We encourage you to pack a lunch, drink, and proper equipment and hike to a fire tower where the views are spectacular no matter what season you visit.

Prefer indoor activities? They also abound here, and we have the Northeast Classic Car Museum, The Chenango County Historical Museum, art galleries, cultural performances and many shops and small businesses that will cater to you and your family.

It's true we don't have amusement parks, casino's, sports stadiums, or an ocean view. What we do have is natural beauty, rivers, lakes, arts and theatre, museums, live music, hiking trails, wildlife and miles and miles of state land. Those of us who live here every day take for granted the beauty and attractions all around us. We want everyone to know how privileged we are here in Chenango County.

MONTGOMERY

MONTGOMERY ATTRACTIONS

Erie Canal Lock 33
 www.lock33.com
 Dump Road, St. Johnsville

"One of the town's best kept secrets..." The original double locks of the Old Erie Canal. The site is accessible next to the bike path on Bridge Street along Dump Road which is a dirt road. Marked with a historical marker. Picnic tables on site.

This enlarged double lock is located on the Erie Canal on the south side of the barge canal across from the village of St Johnsville NY, in the town of Minden. You must travel 3/4 of a mile down Dump Road to get to it. A sign on Bridge Street marks the entrance to the road. Terry Potoczny and his team of volunteers have spent countless hours cleaning out the old lock. It is under restoration and was once filled with water and the floating cargoes that made the Erie Canal commercially successful, in November 1999 these double locks instead held tons of garbage including 125 tires, one snowmobile, a motorcycle, assorted bicycle parts, refrigerators, kitchen stoves, and a television. Like other segments of the Erie Canal across the state, these locks are being rescued and restored by local preservation groups, businesses, and governments. Connected by paths and trails, they serve as links to the past and recreational respite for the present.
 The locks history, as researched by Tom Grasso. It was lengthened during the Winter-Spring of 1887-1888. The contract was awarded to Soule and Raynor of Syracuse who also lengthened Lock 32 at Fort Plain. Their bid was \$24,620.50 for Lock 33 and \$24,111.50 for Lock 32. It was lengthened at the head of the berm side instead of the foot probably because Lock 33 is located at the end of a curve and lengthening it at the foot would make the lower end of the lock stick out into the curve taking away from the arc of the bend rendering it sharper and for double headers this could be a big problem.

The Lily of the Mohawks. Kateri Tekakawitha, was beatified by Pope John Paul II in 1980. Kateri lived her teenage years at the site of her shrine, which includes a rustic chapel in an 18th-century Dutch barn and displays of artifacts form an on-site archeological excavation of an entire Mohawk village.

Pope Benedict XVI authorized a decree recognizing a miracle attributed to the intercession of Blessed Kateri. Visit the Shrine of Our Lady of Martyrs website, www.martyrshrine.org, for more information.

Old Fort Johnson, the 1749 fortified limestone home of Sir William Johnson, is representative of the best of colonial architecture. No other home of a prominent New York citizen of the colonial period has survived so untouched by the changes of style and time. This National Historic Landmark is owned and operated by the Montgomery County Historical Society, a private, non-profit organization established to collect and preserve Mohawk Valley history. It is the Society's intent to present the Fort as close to the way it was during Sir William's lifetime as can now be determined. Most furnishings are contemporary to Johnson's time, and a number of items are from the Johnson family. The Fort also houses exhibits which include a collection of Native American artifacts focusing on the Mohawk Valley; the Betsey Reynolds Voorhees room which articulates the life and times of a prominent 19th century lady; the attic which holds pieces that tell the history of Montgomery County and a rare 18th century privy.

The Landis Arboretum is a public garden spanning 548-acres into both Schoharie and Montgomery Counties. Forty acres are developed with plantings of trees, shrubs, and herbaceous perennials from around the world. The remainder of the property consists of natural areas, woodlands, wetlands, more than 8 miles of trails, and open fields reminiscent of the former Oak Nose Farm, homestead of founder Fred Lape.

The grounds are open daily from dawn until dusk. Suggested donation of \$5.00
The office is open Monday through Friday, 10 am-2 pm.

FULTON Gateway to the Adirondacks

The splendor of the seasons comes naturally to Fulton County, where the Adirondack Park meets the Mohawk Valley. In an area so varied, beauty is abundant in spring, summer, winter and fall, and the slate of activities is equally complete.

Fulton County in the spring and summer is shimmering with an abundance of lakes and streams for fishing, boating and swimming. The mountains and valleys boast quiet sylvan paths lined with pine needles and maple leaves.

In this land of nature's bounty, the number of activities is only as limited as your imagination. Let's say a brisk walk in the cool dew in the morning, a round of golf on any of several courses in the afternoon, then a moonlit cruise on one of 44 lakes. Folks who appreciate the indoors as much as the scenic outdoors can take in the historic sights, like Johnson Hall Historic Site, the former home of French and Indian War hero Sir William Johnson. Events are planned year-round at the Rice Homestead as well, a 1790 Colonial homestead.

Kane Mountain Trail

A popular and easy hike of the Canada & Caroga Lake area. This 2180 foot summit has three trails and holds one of the Adirondack Park's historic fire towers. One of the trails is a half-mile long, another is 9/10 of a mile and the back trail is about 3/4 of a mile. From the mountain's peak, you can see nine bodies of water and a beautiful spread of mountains and valleys.

Prepare for a family day at the fair

County fairs, state fairs and country fairs dot the landscape in late spring, summer and fall, offering fairgoers plenty of attractions and rides to fill warm days and evenings. Families who plan ahead for the festivities may be able to improve their experiences.

- **Purchase passes in advance.** Some fairs enable visitors to purchase entry tickets, parking passes and even game vouchers online. There are advantages to doing so, such as bundling discounts. Buying tickets in advance also cuts down on time spent waiting in line.
- **Devise a basic plan.** Look over the list of attractions and activities to gauge what you want to get out of the fair. Some fairs post their calendars online. With kids in tow, you'll likely want to check out any children's rides or animal exhibits and interactions. Create a generalized plan, but be flexible, especially when going with other families.
- **Think about safety.** Fairs attract thousands of people and that can lead to confusion if children become separated from their parents. Write your mobile phone number down and put it in your child's pocket or bag, so he or she doesn't have to memorize it. Consider finding the tallest attraction at the fair (perhaps the ferris wheel), and make that the meeting point if anyone becomes lost. Snap a photo of youngsters when you arrive so that you'll have a recent image and know exactly what they are wearing if you need to engage law

enforcement. Some parents tell their children to find another parent and ask them to help them contact security.

- **Time your visit.** If the fair runs during the week and into the weekend, weekdays are likely to be much less crowded. Also, while not ideal, a cool day or one with a slight drizzle will cut down on crowds and improve the ability to see more things and get on more rides.
- **Factor in food.** Fair food is an indulgence to enjoy when fairs come around. Rather than go overboard, pick one meal or item that the family will enjoy. Bring a backpack, if permitted, and fill it with bottled water and other light snacks so that you can tame hunger pangs and not bust the budget at the food court.
- **Understand game odds.** Fair games are largely designed to earn the event money and not to cash out prizes to all participants. The chances of winning the grand prize, which may be a giant stuffed giraffe, usually are low, so it's best if children do not become overly concerned with winning a prize. Play the games for fun and memories and not to walk away with the biggest prizes.

In addition to these suggestions, parents can make sure they bring insect repellent and sunscreen to the fair. Dress for comfort and not fashion. These strategies can help families make the most of the county fair this year. TF227138
